

Dmitry Lavrinovich

JavaScript developer

Limassol • +357 97 863615 • lvr@dmlvr.ru • linkedin.com/in/dmlvr

SUMMARY

I have been working in IT for 11 years, with 3 years as a JavaScript developer. I have experience in developing both server-side and client-side parts of web applications using microservices architecture. I possess strong knowledge of JavaScript, TypeScript, Node.js, React.js, Next.js, and use modern CSS frameworks. I work with GIT and am capable of testing code functionality before sending it for review.

PROFESSIONAL EXPERIENCE

Full-stack developer

October 2020 – Present

IEK Company

IEK is a leading manufacturer and supplier of electrical and telecommunication equipment, competing with companies like Schneider Electric and ABB Group.

- Developed a product catalog from scratch for several websites using Next.js, SCSS, and i18next, increasing daily visits from 15,000 to 25,000 and reducing support costs by threefold.
- Designed the interface and database for creating test sheets on NEXT.JS, organizing unified data storage, resolving version conflicts and errors, and cutting the cost of creating a test sheet by 25% through automation.
- Launched the MVP of the client portal ahead of schedule by integrating layouts in React.
- Established the foundation for an interface development approach as an own UI component library, reducing the time for changes by 90%.
- Designed and maintained over 50 pages of various complexity levels with a support cycle of up to 2 years.
- Increased the conversion rate of visits to orders and inquiries from 3 to 9% while working with the website.
- Developed a service for automating the creation of short links with utm tags, speeding up the link generation process from 5 minutes to 10 seconds.

Full-stack developer

September 2019 – October 2020

htmlacademy

As part of my training, I implemented more than 5 projects:

- Developed from scratch the frontend of a photo-sharing application using ECMAScript.
- Created a product management module for an e-commerce site's admin panel using Vanilla JS.
- Developed the frontend of an apartment rental service on React, covering 80% of the code with tests.

EDUCATION

- Belarusian State Economic University

CERTIFICATES

- HTML and CSS: Professional website layout
- HTML and CSS: Responsive design and automation
- JavaScript: Professional web interface development
- JavaScript/DOM/Interfaces
- React: Development of complex client applications. TypeScript, React, Redux, Jest.

SKILLS

JavaScript, TypeScript, Node JS, React, Next.js, Redux, Directus, Docker, Express, Fastify, PostgreSQL, HTML5, CSS\LESS\SASS
