

Dmitry Lavrinovich
JavaScript developer

Limassol, Cyprus • +357 97 863615 • lvr@dmlvr.com • linkedin.com/in/dmlvr

SUMMARY

I have been working in IT for 12 years, with 4 years as a JavaScript developer. I have experience in developing both server-side and client-side parts of web applications using microservices architecture. I possess strong knowledge of JavaScript, TypeScript, Node.js, React.js, Next.js, and use modern CSS frameworks. I work with GIT and am capable of testing code functionality before sending it for review.

PROFESSIONAL EXPERIENCE

Full-stack developer

October 2020 – Present

IEK Company

IEK is a leading manufacturer and supplier of electrical and telecommunication equipment in Russia, competing with companies like Schneider Electric and ABB Group.

- Developed a product catalog from scratch for several websites using Next.js, SCSS, and i18next, increasing daily visits from 15,000 to 30,000 and reducing support costs by threefold.
- Designed a quality management platform. Frontend built with Next.js, backend with Fastify, and data storage using Open Data Platform Directus. Organized unified data storage, resolved version conflicts and errors, and reduced the cost of creating a test sheet by 25% through automation.
- Launched the MVP of the client portal ahead of schedule by integrating layouts in React.
- Established the foundation for an interface development approach as an own UI component library, reducing the time for changes by 90%.
- Designed and maintained over 50 landing pages of various complexity levels with a support cycle of up to 2 years.
- Increased the conversion rate of visits to orders and inquiries from 3 to 9% while working with the website.
- Developed a service for automating the creation of short links with utm tags, speeding up the link generation process from 5 minutes to 10 seconds.

Full-stack developer

September 2019 – October 2020

htmlacademy

- Developed from scratch the frontend of a photo-sharing application using ECMAScript.
- Created a product management module for an e-commerce site's admin panel using OOP Vanilla JS.
- Developed the frontend of an apartment rental service on React, covering 80% of the code with tests.

EDUCATION

- Belarusian State Economic University, Bachelor's Degree in Marketing
- Belarusian Trade and Economic University of Consumer Cooperation, Master's Degree in Marketing

LANGUAGES

English – B1, Russian - Native

CERTIFICATES

- HTML and CSS: Responsive design and automation
- JavaScript/DOM/Interfaces: Professional web interface development
